Professional Summary

Data-driven B.Tech student with hands-on experience in developing **AI/ML-powered projects** and designing intuitive user experiences using **Figma**. Adept at applying **Python** and machine learning libraries (such as Scikit-learn, Pandas, TensorFlow) to build smart, efficient solutions. Demonstrated creativity and technical strength through impactful UI/UX case studies and front-end development. Also equipped with a foundation in **cybersecurity**, including penetration testing and Kali Linux. Known for strong hackathon performance, and collaboration in fast-paced, problem-solving environments.

Personal Projects

Wildfire Prediction: Machine Learning Model for Predicting Wildfires

- Developed a system to predict wildfire occurrences using Machine Learning, Data Science, and Artificial Intelligence techniques.
- Analyzed time-series data for proactive disaster management and response.
- **Technologies:** Machine Learning, HTML & CSS, JavaScript, Bootstrap, Flask
- **Link :** <https://github.com/PranavNaik16/ML-Projects/tree/main/WildLife%20Prediction%20Model/Prasunethon-Mavericks-main>

NeuroLearn — Intelligent Q&A

- Built an interactive neuro-education web app using **LangChain**, **Qdrant**, and **TinyLlama-1.1B-Chat-v1.0** via Hugging Face for real-time tutoring. Included features like property search, simple filters, and virtual tours to enhance engagement.
- **Integrated retrieval-augmented generation (RAG)** to deliver accurate, context-aware responses to student questions.
- Designed a student-friendly UI and implemented **semantic search** to enhance learning experience and answer precision.
- **Link :** <https://github.com/cntrlc-cntrlv/mlops-project>

Real Estate App

- Designed a sleek, user-friendly real estate app prototype in Figma.
- Included features like property search, simple filters, and virtual tours to enhance engagement.
- **Link:** <https://www.figma.com/design/Aq7OeB4w1I3jAxNtyt7Rts/Real--Estate?node-id=0-1&t=GpY4OablJyJ5fmq7-1>

Digital PMPL App

- Created DigiPMPL, a concept for online payment in public buses, using Figma.
- Integrated features like digital wallet integration, QR code scanning, and real-time payment tracking.
- **Link:** <https://www.figma.com/design/2BcmJ3nRFbsamzaK598ITE/DigiPmpl?node-id=0-1&t=ZVNteJO7sF3CKuIP-1>

Technical Skills

- **UI/UX:** Design principles, Prototypes and tools (Figma).
- **Languages:** Python | C++ | SQL | HTML/CSS | Java Script | Bash Scripting
- **Backend Frameworks:** Django | Flask
- **Artificial intelligence / NLP :** LLMs (HuggingFace and Llama) | NLP Pipelines
- **Cybersecurity:** Knowledge of penetration testing and in Kali Linux.

Education

AISSMS IOIT | Pune

Bachelor of Technology in Artificial Intelligence and Data Science (2022-2026)

Shri Shivaji Vidhya Mandir & Jr.College, Aundh | Pune

Senior Secondary (XII), Science (2020-2022)

Spicer Higher Secondary School, Aundh | Pune

Secondary (X) (2020)
